“Always safe, always secure”

## **Our Directors Message**

The most important things in life are priceless. Security, being one of them both for your home and business is like health, without it you cannot truly enjoy the fruits of your labor. This is one area of your life that must not be left to chance, WHY? NO amount of Insurance money can ever replace the loss of a home, loved one, or the possessions you have worked so hard for. They are emotionally part of your very being.

Unfortunately the odds to security in Kenya are high and the current insecurity trends in our country will confirm this. According to police records a residence is broken into every 10 seconds. Worse, break-ins often do not stop at burglary. Criminal attacks now include home invasions, armed robbery, kidnappings, carjacking, homicide, and even assaults whose statistics are steadily rising over the past few years. What is worse is that security threats have extended to mass shootings and terrorism. The police have chilling figures to support that too!

The chances of stopping these crimes is raised by the presence of a security guard, CCTV surveillance, electric perimeter fencing, automatic access control , car tracking devices and even a dog patrol unit. A recent survey showed that intrusions and burglaries are 400% less likely to occur at homes and business premises armed with either of these security systems. The security odds now look better when you consider that 85% of police chiefs surveyed support these security systems as a deterrent to insecurity threats. These threats to our families and businesses are both real and critical demanding a priority attention. This is where we PADA SECURITY AND ALARM SYSTEMS come in to offer solutions to these imminent problems.

The first thing most victims do following a crime is to acquire a security system. Unfortunately usually too late one might say. Residential and business insecurity statistics are grim and getting worse. YOU have the perfect opportunity to learn from these mistakes by not waiting. Act Now!!

**Be safe and let us worry for you!**

“Always safe, always secure”

[www.padasecuritysystems.co.ke](http://www.padasecuritysystems.co.ke)

## **Our Motto**

**“Always safe, always secure, every hour, every minute.”**

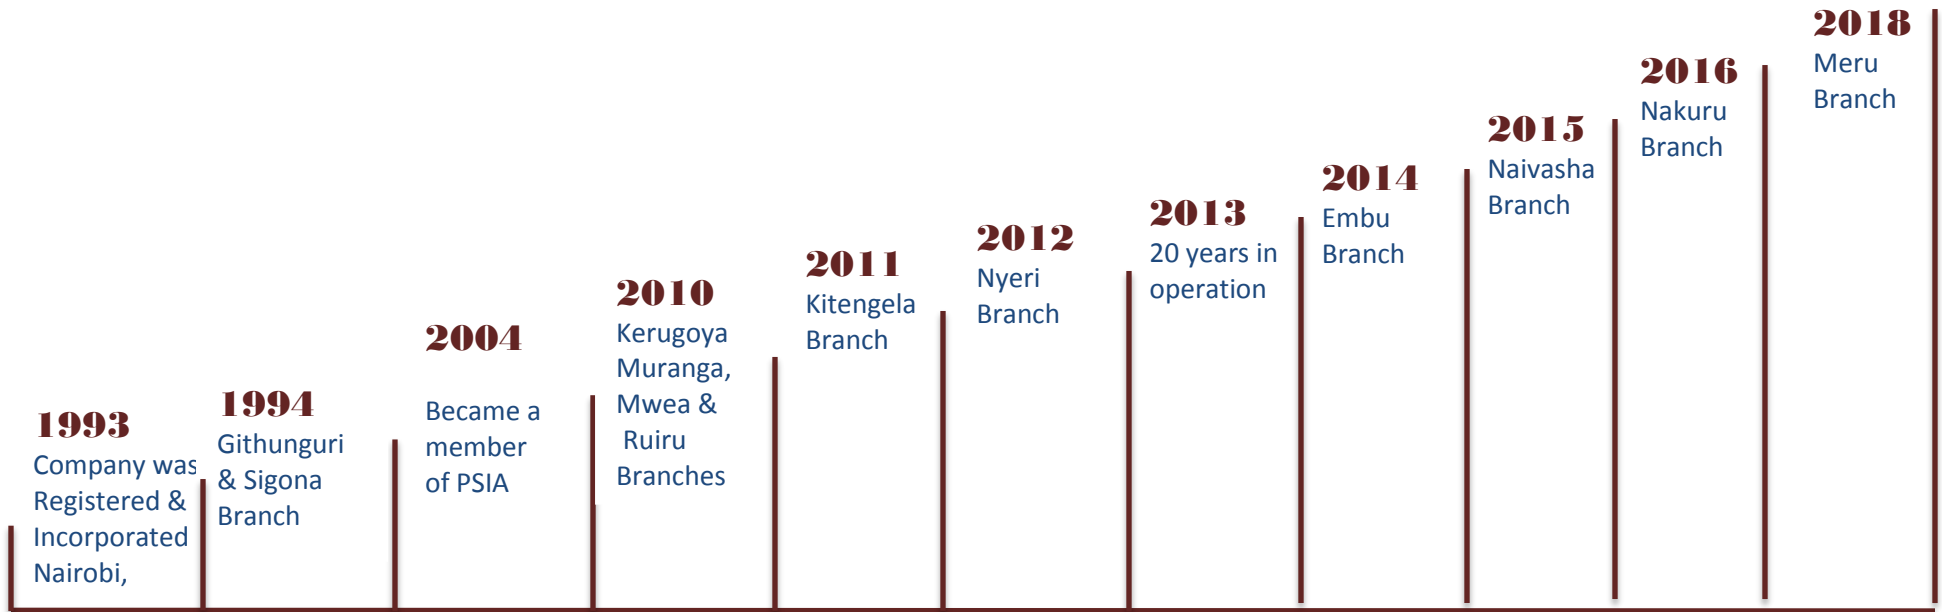

We live this motto everyday by ensuring that our clients can fully rely on us to provide them with secure work and home environments. We also ensure we remain responsive to the developments in the security sector and work hand in hand with our clients and other stakeholders in security risk minimization. Our staff are trained to live this motto by being ALERT always, everywhere, whether on or off duty.

## Our Purpose

- ▶ We will continuously upgrade the vigilance skills of our people by attracting and nurturing a unique pool of experts in an inspiring and motivating work environment to ensure we offer the most optimum service delivery.
  - ▶ We will acquire the latest and high edge security technology in the market to ensure that we deliver the best and highly rated security services in the market.
  - ▶ We will constantly keep track of new developments in the security sector that make significant impact on the industry to ensure we become part of the client's transformation.
  - ▶ We will liaise with the national security organs in the markets we operate for the necessary compliance and beneficial collaborations.
- ▶ We will update our clients on new security risks and advise on security risk minimization, making them a priority in all our operations. Our clients are our biggest cheerleaders and we aim to be part and parcel of their personal and business transformations.

# Our organization Structure

“Always safe, always secure”

# Product Divisions

**Security Guards** Our guards are carefully selected, fully vetted, well trained, highly motivated and much disciplined to ensure high levels of efficiency, discipline and integrity. They include Ex- GSU, Ex-Police, Ex- NYS officers who have clean letters of discharge from their former employers and members of the public whom we train.

# Guard Tour Monitoring

**NO MORE SLEEPING ON THE JOB!!!!!!!** . We liaise with JWM Hi-Tech to offer you the perfect solution to this perennial problem **“OUR GUARD TOUR SYSTEM”**. The Guard Tour Monitoring System revolutionizes service delivery and service assurance for deploying guards or security personnel. For the first time we are able to know **in real-time** that our guards have arrived on shift at the right time, that they are completing their expected patrols or other activities **in real-time**, and that they are awake, alert and delivering high levels of quality services that you deserve. We are therefore able to ensure and assure efficiency and effectiveness of guards during their tour of duty and also facilitate fast response during emergencies.

**We are the official African JWM Distributors!!!!!!!**

## Security Training

All our security officers undergo thorough security training at our security training center. Pada Institute of Security Studies is a security training center based in Kikuyu. We have fully trained, qualified and experienced security trainers. We are registered by NITA (TRN/1357) to offer Security Level I and Security Level II which includes courses in Basic Security Guarding, Security supervision, CCTV control room operations, Dogs and dog handling, and Mobile responses among others. The training improves the skills of our security personnel and their response to security risks and hazards.

## Alarm Systems

The threat of fire and theft is a constant worry for any business or home owner. Our clients' premises, fixed assets and confidential information represent large investments and their damage or loss, regardless of insurance, can cause major disruption. While the probability can never be determined, our high quality alarm systems are designed to detect and alarm in any emergency case. We have trouble free intruder alarm systems made from the World's leader in Security matters - K.P Electronics of Israel. In support of these systems we have well equipped back-up cars for fast response in case of any distress. Our fleet of Back up cars has armed policemen during the night.

"Always safe, always secure"

## Fleet Tracking and Management System

Whether you want to find your car, motorbike, boat, moving asset or truck; simply use our tracking device and you will know where it is by SMS to your mobile phone. This is made possible by using our tracking device which is designed to work with any GSM phone. With this service you get security of what you are tracking and peace of mind. You also get instant notifications through phone & listen to the surroundings with the remote microphone.

## Closed Circuit Television

We have a wide range of CCTV cameras models to cater for variety of security needs and situations. Our cameras have come in handy to help our clients in both fighting and preventing crime on their home and business premises. We aim to help our clients avoid the risk of burglary, vandalism well as theft of data and personal information. Our CCTV cameras offer you:

as

- \* Visibility
- \* Remote monitoring
- \* Easy installation and maintenance
- \* Low cost with high security
- \* 24-hour coverage

"Always safe, always secure"

## **Electric Fences & Automated Access Gates**

An automated driveway gate or access gate can add beauty, security, and value to your home, business, government, or housing community. With a customized design that reflects your style and an easy to use access system, it creates a welcoming first impression. You'll work with courteous, experienced gate specialists who make it easy to design, install, and maintain, a dependable entry gate you are thrilled with. Our electric security fences can be mounted on the wall or as a stand-alone perimeter fence. It offers a physical barrier that delay the intrusion time through a high electric voltage shock to intruders. It also provides a higher level of detection capability to detect an intrusion attempt and set off the alarm, which can then be transmitted to our security personnel.

## **Dog Patrol Unit**

This unit comprises of fierce well-trained German shepherd, Doberman, Great Dane and Rottweiler dogs among others with experienced dog handlers. This service will be provided on demand. Their role is to detect and protect our clients from threatening territorial intruders. They are trained to confront, bite, bark and even fight, staying guard to the assignment.
